Air Show captivates crowd

Mysuru, Oct. 2 (MTY&BCT)- A special air display by an Indian Air Force (IAF) team captivated the crowd at Bannimantap Torchlight Parade Grounds this morning. It was a clear sky though it rained last evening and the 35,000-strong crowd cheered the IAF teams as they performed breath-taking manoeuvres in the air and on the ground.

The crowd had gathered as early as 9.30 am and due to technical glitches, the show began at 12.20 pm. The performance was for one hour and first it was the MI-17 Helicopter dropping millions of flower petals on the cheering crowd. The chopper was steered by Wing Commander Baliga and Srikumar. The other feats included slithering operation and sky diving.

The show began late as the MI-17 Helicopter that was on its way to Mysuru from the Air Force Station, Yelahanka in Bengaluru developed a technical snag and force-landed at Arakere Police Station limits in Mandya. The Chopper, however, landed safely due to the presence of mind and manoeuvring by Wing Commander Baliga. After some time, the helicopter took off to Mysuru and showered flowers on the crowd.

While an eight-member Dare Devil team led by Wing Commander Baliga conducted slithering operation, a 10-member Akash Ganga team led by Commander Avinash performed sky diving from 9,000 feet and landed safely on the Torchlight Parade Grounds.

The slithering operation was performed by a MI 17 Chopper with 8 Dare Devil troops on board. Ropes were drawn from the chopper and the men slithered from them from a height of 50 to 80 feet, much to the excitement of the onlookers.

Governance goof up

India's democratic set up, touted as the world's largest, meaning most populous, has often been bestowed adoration by many heads of State across the world while addressing functionaries in high posts in their respective countries from different platforms and the media has been promptly publishing their complimentary accolades for public consumption. The galaxy of speakers have unabashedly displayed grace and magnanimity in their pristine praises while one among them, highly rated for his scholarly views on the working of Governments of different countries has gone on record saying that Indian Democracy is a *functioning* anarchy, may be by reckoning the many blunders committed by the powers that be in discharging their duty of governing the land and its citizens, marked by malfunctioning, irresponsibility and carelessness. The point to be noted is that he chose to express his perception of the country's journey as a Democracy even before completing *one-third* of its short history. What he, who passed away in 2006 at the age of 98, would have remarked on observing the goings on in the country, which doesn't need elaboration.

Historians, on whose narratives about events in different periods of the past we have to draw in order to know how well or otherwise the country as well as its different regions, such as Mysore Province, were governed, seem to have bestowed all praise or discredit to the respective rulers and their counterparts, side-lining the functionaries in the administration, such as the ICS Officers of the past and IAS Officers who are in charge now.

For a Democracy not to invite uncomplimentary remarks from any quarter, particularly from the informed observers and seasoned commentators, its four pillars are obliged to work in unison to fulfil their duties of governing the land without any glitches, ensuring the sense of fulfilment in all the functionaries. While the army of functionaries in executive and judicial branches of the Government are subject to the rigours of training in the institutions of the land over several years, that cannot be said of the elected representatives, barring a small fraction of exceptions, whose profiles are marked by much to be desired, not to forget the fact that the system in which they revel has no arrangement of training them for their onerous duties.

Dailies are replete with reports of the overbearing conduct of the law-makers hurting the feelings of even IAS Officers and High Court Judges without a care. The law-makers at large are living testimony to the saying attributed to British historian John Dalberg-Acton (1834-1902) that "Power tends to corrupt and absolute power corrupts absolutely," who are having a field-day by goofing up governance.

EDITOR'S BOTTOMLINE

PRINCIPAL SURNAME: ***Guess which surname has the largest share in the list of 13 Principal Secretaries who have served the Prime Ministers of India in the last half a century. If you ignore the difference in how they spell their surnames, Mishra has so far won this race by a wide margin. As many as four Mishras have till now headed the Prime Minister's Office (PMO). That is almost a third of all Principal Secretaries at the PMO so far. Of course, one of them, Nripendra, would spell his surname Misra. But the three others spelt their surnames Mishra and they were: S.K. Mishra, who served Chandra Shekhar, Brajesh Mishra, who served Atal Bihari Vajpayee and P.K. Mishra, who is now serving Narendra Modi. One of the Mishras is ahead of the rest in another area — holding the Office for the shortest time. S.K. Mishra held it for six months and 13 days!*** *— In Business Standard*

Youth marries aged woman to avoid military service

Vinnitsa: A young Ukrainian man has managed to avoid compulsory military service by staying married to a woman who is 57 years older to him.

Alexander Kondratyuk, a young man from the Ukrainian city of Vinnitsa, received his conscription papers. He was to report to the nearest military commissariat for enlistment in his country's one year military service. All able-bodied Ukrainian men aged between 18 and 26 are required to undergo military service, with one exception. If such a man were responsible for looking after a disabled wife, he would be exempt from service.

So Alexander somehow convinced his cousin's 81-year-old disabled grandmother to become his bride, and the couple have now been married for almost two years. Kondratyuk is 24, so after two more years he will become too old to undergo military service and probably divorce his octogenarian wife.

Digital billboard plays graphic porn video on highway

Michigan: Authorities in Michigan are investigating after a digital billboard at the side of a busy highway played a pornographic video for about 20 minutes.

Police said that officers responded to the east side of Interstate 75, south of M-9, about 11 pm on Saturday when drivers reported seeing a pornographic video playing on the screen, which faces both north and south.

Police witnessed the video playing and were able to contact Triple Communications, the owner of the billboard, to have the video stopped.

An investigation has been opened into how the explicit video ended up on the billboard. Auburn Hills city ordinance bans disseminating any pornographic material, images and videos where they could be seen by minors within the city limits. A violation is punishable by up to 90 days in jail and/or a $500 fine.

Devi Navaratri Celebration - Day 4

Today's Deity : Meenakshi

Discourse by His Holiness

Ahamtākhyā matkaṃ kabalayati yā haṃta hariṇi
Haṭātsamvidroopam haramahiṣi sasyāmkuramasau
Katākṣa vyākṣēpa prakata hari pāṣāṇa paṭalaiḥ
Imā mucchairu c cātaya jhatiti kāmākshi Krupaya

O queen of Lord Shiva! The deer called pride/ arrogance has forcibly gulped down my crop known as Real knowledge. Using Your emerald weapon known as Your sharp gaze, please drive away this arrogance from me. I offer obeisance to You!

The Divine Mother is also known as 'Kalyana-guna-shaalini'. Developing friendship with this Mother, who is an embodiment of virtuous traits, helps us in eliminating bad qualities and bad habits. Good and virtuous qualities enhance in us.

The word 'Kalmasha' implies sin. In order to wash away our sins and to ensure that our mind rests totally upon Her, the Divine Mother has made available Her words to us in the form of Vedas, Shastras and other sacred texts such as itihasas and puranas. Therefore, using them as the support, we must conquer all forms of difficulties. We must obtain victory over difficulties. We must resolve all our doubts.

Arjuna, the dearest friend, cousin and disciple of Lord Krishna, was plagued with doubts on the battlefield. Arjuna was no ordinary human. He was the best among humans! He was an erudite scholar, a warrior par excellence and one who had obtained the grace of Lord Shiva himself!

Such a great Arjuna lamented, 'O Krishna! Is it necessary to proceed with this war? Is it necessary to take away the lives of the many warriors who have assembled here? Is it essential to kill one's own relatives thereby increasing the heap of sin?'

At this crucial juncture, Lord Krishna preached the Bhagavad Gita. He said, 'Set aside your limited knowledge and listen with attention to the path of knowledge into which I am now initiating you. Walk on the path preached by me. I shall ensure that no sin touches you'. This is the meaning of 'washing away allimpurities'. We must place implicit faith on the words of the Lord. We must have total faith in the dharma that exists in the form of His words.

Those who have implicit faith and devotion towards the Supreme, never tilt towards sin. Neither do they hear sinful words nor do they utter them. If listening, hearing or looking at sin continues to exist in the person, it implies that his devotion towards the Supreme has not yet ripened/ become firm.

The Mother Goddess washes away the sins in the devotee who have sought shelter in Her. She ensures that he remains pure in all the three time periods. She spares him from the evils of Kali-period.

The holy text Srimad Bhagavatam explains in detail the form of Kali (the present eon) and of how it influences the person towards wickedness. Succumbing to anger, Emperor Parikshit committed a grave sin due to which he was cursed by the sage's son. He then heard the Bhagavatam narrated to him by Maharishi Shuka and got uplifted from that state. It was the influence of Kali, the present eon, that was responsible for this sinful thought to emerge in him.

Parikshit's son was Janmejaya. Seeking that his deceased father must obtain the grace of Mother Goddess, Janmejaya listened to the Devi-bhagavatam from Maharishi Vyasa. With absolute devotion, he worshipped Mother Goddess. Due to this, immediately Parikshit obtained liberation.

The influence of Kali causes the living entity to be tainted with sin soon upon birth. Learned scholars declare that innumerable sins taint the human being. Worshipping the Divine Mother as 'Kalidosha-haraayai namah' i.e., the dispeller of the evils of Kali, meditating upon Her and visualizing Her as the dispeller of the evils of Kali, the person is redeemed of all the evils of Kali period.

Srimad Bhagavatam explains about the 9 forms of devotion. The human being can hold on to any one of the 9 forms and serve the Mother Goddess. This will enable him to obtain liberation.

Mother Goddess is also known as 'Bhakti-priya'. She dearly loves those who have devotion towards Her and who serve Her. This is stated in Devi-bhagavatam.

'The person who is devoted is dearly loved by the Supreme Lord'- is the statement contained in Garuda and Surya Puranas. To highlight this, the stories of 8 supreme devotees are explained.

In order to wash away the sins that taint him, it is enough if the human being holds on to the fire called devotion. This fire will burn down all his sins says Narada Purana.

'To effortlessly uplift the living entity, there is no path barring devotion'- this is mentioned in the Kashi-khanda chapter of Skanda Purana.

What is bhakti? It implies having feelings of love towards the Supreme. The term bhakti also implies offering loving service to the Supreme. This loving service (seva) itself is bhakti, says Maharishi Narada in his composition Bhakti-sutras.

Therefore, all of you should develop pure devotion towards the Supreme. Just as elephant Gajendra had devotionally called out to the Lord, all of you must learn to devotionally call out to Him. Or, just as Uddhava, who due to his burning curiosity to know the truth focused upon the Supreme Essence, you too should focus on that essence.

Else, with the objective of fulfilling the desire, plead with the Lord just as Dhruva did. Else like the supremely enlightened Prahlada learn to see the Lord in every existence in creation. The grace of Mother Goddess flows towards the person who has unflinching devotion towards Her. She allows herself to be held in the sway of such devotion.

The Divine Mother ensures that the mind of her dearest devotee withdraws from this external world filled with sensory objects and instead fixes itself completely upon Her. She shows to that devotee Her universal form.

Performance of good, meritorious deeds ensures the mind turns pure. Purity of mind leads to the emergence of devotion in the person. Devotion enables the person to grasp the Real Knowledge. Such knowledge gives liberation. Understand this sequence and begin attempts to gradually walk up this ladder. The Divine Mother will lead you. As She is pleased with unflinching devotion (bhakti-priya), She will always be by your side. As Bhakti-gamya, She ensures that the ultimate fruit is obtained.

May the grace of Mother Goddess pervade the entire creation!

VOICE OF THE READER

This Road needs attention

Sir,

There is a big crater-like pothole on Akkamahadevi Road in front of Hotel Red Lotus Heritage, which is posing a great danger to pedestrians. Since it is located right in the centre of the road and what with vehicles zooming in all directions at that spot, it is proving to be a big risk in crossing the road *(see photo)*.

This crater has been in existence since quite a long time now, without being filled up in a proper manner. Quite a few accidents have taken place here in the recent past, with injuries to pedestrians and damage to vehicles.

Hence, I earnestly request the authorities concerned to kindly repair this road properly and immediately before any further mishap takes place.

Thomas Cook UK has no stake in Thomas Cook India

Mumbai, Oct.2- With the recent developments relating to the iconic British Travel Company, Thomas Cook PLC, being reported in the media *(Star of Mysore* dated Sept. 23), it is imperative to highlight that Thomas Cook India Group is a completely different entity since August 2012 when it was acquired by Fairfax Financial Holdings (Fairfax), a Canada-based multinational with varied interests across the globe as well as in India.

Thomas Cook (India) Ltd. is a leading integrated transnational travel and travel related services company offering a broad spectrum of services.

Ravi said "Technology is rapidly changing in the 21st century to which both writers and publishers need to adopt themselves."

"Some writers with their own peculiar ideology oppose Bhyrappa for different reasons, but Bhyrappa has vast number of readers across the globe. Do they have so many number of readers?," he questioned.

Satiate your sense of TASTE here

The Aahara Mela being held at MUDA Grounds near Lalitha Mahal Palace Hotel in city.

By V. Shourabh

George Bernard Shaw has rightly said there is no love sincerer than the love of food. With craving for various varieties and a treat for the taste buds, Mysureans are in for a food carnival at the ongoing Mysuru Dasara Aahara (Food) Melas.

The Food Mela has been organised at two places — one in the MUDA Grounds near Lalitha Mahal Palace Hotel and the other at the Scouts and Guides Grounds. The Mela caters to the needs of the modern as well as the traditional crowd as it has all types of food cuisines and varieties ranging from Donut, Pizzas, Burgers to continental dishes, chats, desserts, Biryanis, Akki Roti, Jowar Roti etc. The Melas have an abundance of options in every single type of dish. Biryani has been the central force of attraction for all foodies and this Mela has as many as 10 to 15 different types of biryanis like the Andhra Biryani, Arabian Biryani, Hyderabad Dum Biryani, Bhatkal Special Biryani, etc. To add more festivity to the ambience, cultural programmes keep the audience engaged as they chomp on and engulf themselves with music and food.

Lalitha Mahal Grounds

With a serene backdrop of green lush Chamundi Hill and the magnificent Lalitha Mahal, the Food Mela at this MUDA Grounds is not just a pleasing sight but there is an aroma of food in the air that attracts the nearby commuter. There are a total of about 74 food stalls here. One such stall, that stood out from the rest was a barbecue that was setup outside the stall, with fresh meat being cooked and this sort of a concept of a live kitchen ensured attraction from the public. They sell different varieties of barbecued meat such as drumsticks, boneless chicken, chicken wings, lollipops, fish fry etc.

Speaking to *Star of Mysore*, **Sharat and Ashwin,** joint owners of Barbecue — Indian Style Barbecue, said, "We have started this new venture recently and we have our outlet near Vijayanagar Water Tank. Our concept is different. We do not use any oil, any artificial colour or flavouring. Our food is cholesterol-free and we use freshly grounded Indian spices. We have received good response from foodies and we have buy-one-get-one offers at our outlet too."

Avare Kalu Special Akki Roti with Avare Kalu Curry.

Raju at his Avare Bele Special Stall.

Jayamma, who runs the Navaratna Roti stall, said, "This navaratna roti is a healthy dish, with no compromise in taste. It caters to both the health component as well as triggers the taste buds. As the name suggests, this roti has 9 essential ingredients along with the rice flour. They are jeera, capsicum, carrot, jowar or corn, coconut, coriander seeds/leaves, sesame seeds, onion, rice flour, etc. The rice is also boiled first and then it is grinded into a flour paste. Along with that we have a special brinjal curry that blends well with the roti. We also sell Akki roti and Maddur Vada."

Scouts and Guides Grounds

Situated at the heart of the city, the Mela here accommodates to a larger incoming crowd and has about 95 stalls in place.

Avare Bele special stall is one such unique stall that drew the attention of foodies. The stall was dedicated to cook food stuffs with Avarekalu (Hyacinth Beans) being one of the prime ingredients. **Raju,** one of the members of Avare Bele stall, said, "Here we have a couple of Avare Bele fried mixtures, Avare Bele Vadas, Avare Kalu curry, Avare Kalu Roti, Avare Belle Special Dosa an Avarekalu Usli. We have come from Bengaluru and with this unique concept have been able to attract crowd to our stall."

Another such shop which was flooded with people holding on to their plates was the Suchi Ruchi team's fresh hot Poli (Holige) stall. With sugary aroma flowing out of the shop, the feet of people were naturally drawn towards this stall, as people waited in lines to have a bite at this traditional delicacy which was being tossed up and down on the hot Tava (cooking pan). Owner **Harish** said, "We have been coming to this Dasara Food Mela for 5 years and we have made a mark. We have about 7 different varieties of Poli — Daal, Coconut, Dates, Almond, Cashew, Groundnut and Carrot.

Preetham, who was munching on to the sweet poli said, "We came to the Mela to try different types of food. I came to the Mela with my family and we tried different types of food. We wanted to try some foods that are generally not available or accessible in our nearby surroundings. This poli stall caught our eye. So, we bought different polis and we took a bite from each other's plate. I personally liked the Almond poli. We will also be trying out the other stalls and enjoy the evening."

Delta-Delta type transformers keep Palace aglow

Ten-day Dasara illumination costs Rs.14 lakh for Mysore Palace Board

Mysuru, Oct.2 (OSR) - What is the type of transformer that keeps the illumination of the Mysore Palace uninterrupted? It is a network called the Delta-Delta type transformer that is not found anywhere else in the country but is installed at the Palace. There are two transformers of 1000 KV and two of 500 KV that are installed at the Palace premises that helps in the uninterrupted power supply to the nearly one lakh bulbs that keeps the whole of the Palace premises bathed in a golden glow.

These Delta-Delta type transformers are of a specialised category, whereas general Distribution companies in the country are making use of Delta-Star with neutral point.

Asked what is so unique about Delta-Delta, Mysore Palace Board Deputy Director T.S. Subramanya, speaking to *Star of Mysore* said that in this type, as there are nearly one lakh bulbs, if a bulb burns out, only that bulb will go off and all the other bulbs will continue to glow, which is not possible if for instance in Delta-Star with neutral point. Hence, when the illumination of the Palace was done nearly 75 years ago, this system was adopted realising its advantages. However, for general lighting of the Palace, a 250 KVA transformer is also installed, he added.

Rs.14 lakh power bill

On an average when the Palace is illuminated on Sundays and holidays and during the sound and light show, 1500 units of power is consumed during one hour of illumination and the bill comes to about Rs.14,000. Thus the average monthly bill for the Palace is Rs.10.5 lakh. However, during Dasara celebrations, when the Palace is lit on all ten days, the monthly bill touches about Rs.14 lakh, said Subramanya.

Earlier, the incandescent bulbs fixed on the main Palace and all gates were of 30 watts capacity. Then there were fewer bulbs also. But realising that it consumes more power, 15 watt screw type incandescent transparent bulbs were replaced about 30 years back. Now with nearly one lakh bulbs, the golden glow (like in the 30 watt) is maintained, he said.

Even as the bulbs keep getting burnt due to exposure in the sun and rain and bird droppings, it will be replaced. Usually a stock of 22,000 bulbs is requisitioned in a year. This year for Dasara about 18,000 screw-types 15 watt bulbs are being replaced, Subramanya said and added that the advantage of screw type is that even if it is stolen it cannot be used at homes or in other places.

Except for the illumination of the Palace, in other places LED fittings for energy conservation as well as to reduce Co2 (Carbon-di-oxide) emission have been used, he said.

Power supply to Mysore Palace is arranged by the Chamundeshwari Electricity Supply Corporation (CESC) at 11 KV voltage class. There are four different 11 KV feeders which are connected to Mysore Palace Board Power Distribution Station for arranging uninterrupted power supply, keeping the convenience of tourists and security point in mind, he said.

This Dasara, the Mysore Palace is illuminated from 7 pm to 9.30 pm till Oct. 13.
